Dear Josh:

The arrangement which arrived yesterday from you and my friends at the Rockefeller University is just unbelievably pretty. Such a happy combination of colors, and blooms...it is one of the prettiest I have seen in a long time.

Unfortunately I won't be there Wednesday to see David get his degree, but most of the children will be and I will get many first-hand accounts. This is a terrible disappointment to me, but nothing to be done. The good news is that they are letting me out of here this afternoon which is much sooner than expected but only after promising to be good as gold, and very quiet.

With many, many thanks for that lovely bouquet and hoping to see you both soon,

With affectionate greetings, as always,

Peggy

P.S. Thanks so much for sending me the Giffords & Stephens Report on Simmental Steers, etc. I appreciated your sending it and was amazed that it should have caught your eye.
